

Egg Harbor Township Police Department Firearm Application Process

A historical review of the background investigative process has indicated the primary cause of a processing delay is the failure of a cited reference to return a signed reference letter. The proliferation of smart phone technology has provided the capability to communicate via telephone or email nearly instantaneously. As a result and in an effort to expedite the background investigative process, the Egg harbor Township Police Department is requesting the following additional information when making application for a Firearms Purchaser Identification Card and/or Handgun Purchase permit.
